

# DO OR DIESEL

- Rationalise taxes to remove cost incentives on diesel and diesel cars. This will restrict increase in diesel cars. Take into account recommendations of the Raja Chelliah committee.
- Announce — immediately — a policy that will maintain an effective differential between diesel and other clean fuels such as CNG. This will encourage use of cleaner fuels.
- Give fiscal incentives to bring forward Euro IV technology.
- Implement an effective in-use inspection system for on-road diesel vehicles, that can test and monitor particulate and nitrogen oxide emissions from these vehicles.

**OR ELSE, TRASH DIESEL VEHICLES.  
PUBLIC HEALTH CANNOT BE TAKEN  
FOR A RIDE ON DEVIL'S ENGINES!**
